

Montreal, Canada – March 7th, 2007 – Today, Swedish game developer **Lockpick Entertainment** and Canadian Massively Multiplayer Online Game ('MMOG') specialist **Alchemic Dream, Inc.** announced a partnership for the groundbreaking Massively Multiplayer Online Real Time Strategy ('MMORTS') game, *Dreamlords*.

Dreamlords combines the accessibility of a web game with RPG character development, 3D Real Time Strategy ('RTS') battles and long term tactical strategy. Players can choose their Dreamlord from three races, each possessing their own strengths and weaknesses, then set out to conquer territories in a 3D environment, while also managing their empire through the web interface. The title's compelling story and integrated 3rd person quests will be sure to keep everyone's interest strong. In addition, 90% of the monsters in the game were dreamt up by users worldwide through the unique Dreammonster feature.

Alchemic Dream will handle customer support for *Dreamlords*. This is not Alchemic Dream's first venture in answering player requests; they are currently successfully providing this service to companies such as Codemasters (*RF Online*, *Dungeons and Dragons Online™: Stormreach*, *Archlord*, *Lord of the Rings Online™: Shadows of Angmar™*) and Linden Lab (*Second Life*).

About Lockpick Entertainment

Lockpick Entertainment is a privately funded company in the digital entertainment industry focusing on the development of computer games based on their own original concepts. Their ambition is always to create entertaining quality products. Their first game, *Saga of Ina*, won the KTH Game Awards in 2004. With *Dreamlords* out, Lockpick Entertainment is currently working on a new second project: *The Adventures of Nicco and the Book of Pranks*. In collaboration with University of Skövde, the project aims to reinvent the term Edutainment and take this genre to a brand new level. For more information about Lockpick Entertainment, visit the company's corporate website at www.lockpick.se.
